PLACE: Dept. of State

SUBJECT: IG - Meeting on Namibia/UNTAG

SUMMARY OF CONCLUSIONS

We held the IG on September 2 to review the current state of play in the Namibia and Angola negotiations, discuss UN cost figures for the UNTAG operations, and to consider questions related to Congressional approval for the funding requests required to cover U.S. contributions.

There was a consensus that we should move forward on preparing a request for UNTAG funding in the Continuing Resolution for FY 1983 since progress to date indicated that a full and final agreement on settlement in Namibia, including the related issue of Cuban troop withdrawal from Angola, could be reached within the next several weeks. It was also agreed that \$125 million, plus up to an additional \$15 million from the Migration and Refugee Account, is the best estimate of what we will need for the U.S. assessed contribution to UNTAG, and that this figure should be sought up front in the CR request for a number of compelling reasons -- including the UN's current cash flow problems. We are seeking harder information than we currently have on the end uses of all assessment funds for eventual use with Congress, and IO is taking the lead with others (T, L, M and H) in drafting the necessary legislative language. OMB will also let us know the "fail-safe" date by which we will have to make a final decision, based on the state of negotiations, to include or delete UNTAG funding in the request to Congress.

Given currently available information, DOD's best estimate for the initial transportation costs for UNTAG forces and equipment is about \$80 million. There is no consensus on how or when these funds should be sought from Congress, and T will prepare a memorandum for the Secretary's action outlining the various options. T's memorandum will also place our UNTAG requests in financial perspective with other elements it is recommending for inclusion in the Administration's Continuing Resolution proposal.

ACTION ASSIGNMENTS

1. State (IO, L, H, PM) will draft the legislative language -- specifically the CR request and the budget amendment -- necessary to obtain funding from Congress for the U.S. contribution to UNTAG.

2. OMB will inform the IG Chairman (State) of the exact "fail-safe" date for the submission of UNTAG funding in the CR.

3. State (T) will prepare an action memorandum for the Secretary of State outlining the options on funding the DOD-provided transportation for UNTAG, and will put UNTAG in financial perspective with other CR requirements (memo to be cleared with other interested bureaus).
